

# CRH - S/4 Implementation (9 month Go-Live)

CRH America Materials is a division of an international group of diversified building materials businesses which manufacture and supply of a wide range of products for the construction industry. Unlike other group companies, up until the end of 2017 they did not have cement production as part of their portfolio in the U.S. CRH purchased their first cement plant from a competitor who was running SAP ECC.

As they did not have SAP in their other lines of business, they decided to do a greenfield implementation of S/4 HANA based on the business processes in the SAP ECC installation for cement in their European counterpart. Echelon was invited to transform their landscape and business to be digitally enabled while integrating with parent and group companies over similar platform.

## Scope

- Advisory Services
- Implementation of S/4HANA Full Scope - FI, CO, PP, MM, WM, PM, MDG, GRC & HR
- APO & IBP Implementation
- Vertex implementation
- AMS
  - Break/Fix Support
  - IT Outsourcing – Ongoing support of added functionality
  - Functional and Technical support

## Outcome

Using its robust deployment methodology (OOO – onsite / offsite / off-shore) Echelon delivered a cost effective S/4 system. The system is live with all the agreed upon processes and is able to deliver insights into the business using intelligent analytics. This allows CRH to not only get the latest information on their business but it also allows them to take quick business decisions.

## Why Choose Us?

Echelon is one of the three original SAP HEC Global Partners and continues to be one of less than ten global HEC-AMS partners. Our leadership has been working with the HEC organization since its inception and has jointly worked in a multitude of global SAP deployments. Echelon's cloud-first approach and extensive experience with S/4HANA allows our customers to benefit from our lean and repeatable implementation approach.

Echelon was first to the market in SAP S/4HANA with successful implementations in Heavy Equipment Manufacturing, OEM, and Wholesale Distribution. We provide:

- Greenfield implementations
- Technical upgrades (migration or Brownfield implementation) from Legacy SAP environments to S/4HANA Cloud environment
- Two-tier ERP strategies

Contact us to start your digital transformation journey. Our experts can help develop the business case and a roadmap to start your cloud journey.
