

# Mitsubishi Electric Automation (MEAU) - SAP Business Process Assessment

MEAU, currently running on ECC 6.0, engaged Echelon to provide consulting services for a Business Process, SAP Development, Testing, and data readiness assessment. The goal was to understand if there were key process harmonization opportunities that MEAU could take advantage of before an implementation of S/4HANA.

## Scope

Business process harmonization and S/4 readiness. MEAU engaged Echelon to understand if there were key process harmonization opportunities that they could take advantage of before an implementation of S/4HANA. The business function assessment scope was:

- FICO
- OTC
- MM
- PPDS
- Reporting and Analytics
- MDG

## Outcome

After a detailed study of the business processes and implemented functionalities in the existing ECC 6.0 environment, Echelon gave a detailed report of the assessment. Echelon recommended that MEAU should take up process harmonization during an implementation instead of beforehand to avoid duplicated efforts. Echelon created multiple implementation options for MEAU to consider to save money on paying for SAP maintenance and to quickly gain the benefits of SAP S/4HANA

## Why Choose Us?

Echelon is one of the three original SAP HEC Global Partners and continues to be one of less than ten global HEC-AMS partners. Our leadership has been working with the HEC organization since its inception and has jointly worked in a multitude of global SAP deployments. Echelon's cloud-first approach and extensive experience with S/4HANA allows our customers to benefit from our lean and repeatable implementation approach.

Echelon was first to the market in SAP S/4HANA with successful implementations in Heavy Equipment Manufacturing, OEM, and Wholesale Distribution. We provide:

- Greenfield implementations
- Technical upgrades (migration or Brownfield implementation) from Legacy SAP environments to S/4HANA Cloud environment
- Two-tier ERP strategies

Contact us to start your digital transformation journey. Our experts can help develop the business case and a roadmap to start your cloud journey.
